

FEINDEF 25 already has 80% of the space reserved a year ahead of its fourth edition

- The IV edition of FEINDEF will feature 30% more space than the previous edition, with over 50,000 square meters of exhibition spread across three halls at IFEMA.
- Among the new confirmations are a significant number of international companies, which already account for 25% of the commercialized stands.
- FEINDEF 25 will have 2,000 square meters of static exhibition showcasing some of the main systems and developments serving the Armed Forces today.

Madrid, 30 May 2024. The International Defence and Security Fair of Spain, FEINDEF, announces the reservation of over 80% of the available space for its fourth edition, FEINDEF 25, to be held on May 12, 13, and 14, 2025, at IFEMA (Madrid). With twelve months to go until its realization, 262 companies have already reserved their space at the event, marking a significant commercial milestone.

Among the confirmed companies, 65 are of international origin (25% of the total), reflecting FEINDEF's strong commitment to promoting the international character of the event, aiming to surpass 35% of international companies. FEINDEF will have representation from companies from countries that have been present in previous editions such as Italy, the United States, France, the Czech Republic, Germany, Japan, Sweden, Israel, Norway, Serbia, or Portugal, and from other new countries such as Romania and Bulgaria.

Likewise, in line with this international drive, the goal is to attract the participation of over 100 official delegations, surpassing the figures from previous editions. This will strengthen FEINDEF's position as the most prominent event in defence and security in Spain. The aim is to create a space that fosters new networking opportunities among all key actors in the defence sector.

A clear example of the strong support that the innovative Spanish Defence and Security industry provides to this fair is the constant growth in the surface area contracted by large national companies, which now occupy more than half of the available space. This commitment reinforces FEINDEF's position as the main international showcase for the Spanish defence and security industry, demonstrating its focus on driving the sector's internationalization.

FEINDEF 25: More Space and International Representation The International Defence and Security Fair of Spain, FEINDEF, organized by the FEINDEF Foundation, is the only fair in the sector institutionally supported by the Ministry of Defence, and is positioned as the most important Defence and Security event held in Spain, opening up to the world and offering new business opportunities.

The IV edition of the International Defence and Security Fair of Spain, FEINDEF 25, will feature over 50,000 square meters of exhibition space in 3 halls at IFEMA (30% more space than in the previous edition) to respond to the growing interest from defence and security companies, both national and international. Likewise, its 2,000 square meters of static exhibition will showcase some of the latest systems from sector companies that are already serving the Armed Forces. FEINDEF 2025's ambitious plan of activities will reaffirm this event as the most important defence and security event held in Spain by creating a space where new networking opportunities are generated among professionals, authorities, official bodies, international delegations, and other key industry stakeholders.
